

# ACTIVE AND HEALTHY PARKS AND PRECINCTS

Client Brisbane City Council Scope Signage Design and Manual Year 2003 Production Budget \$450,000

The Active and Healthy program encourages the use of Brisbane parks as local 'community centres' encompassing a broad range of activities. The signage system supports the creation, management, promotion and identification of the parks and precincts. The system is a kit of parts incorporating poles, panels and clamps.

[Clockwise from top left] major identification sign, minor information sign, directional sign, information sign detail, map information sign and area identification sign.
