

CRONULLA CENTRAL LIBRARY

Client **Sutherland Shire Council, Cronulla Central Library signage and large wall graphics**
Timeframe **August – November 2009**

Working with Lyn Barakat from Sutherland Shire Council and architect Esther Hayter, interior signage and graphics were developed for the newly built Cronulla Library. A strong but restricted colour palette of red and charcoal dominates the interior, while teal blue was used on all signage outside the library.

Signage components consisted of bookshelf, catalogue and reception identification. Large graphic installations included a 'Playstation' wall using 2 pac painted acrylic in the young adult area and streams of book titles running across walls in acrylic lettering applied to the entrance 'welcome wall' and reception wall.
