

# LIVERPOOL CITY CENTRE

Client **Liverpool City Council** Scope **CBD Wayfinding and Signage** Timeframe **2003-04**

Liverpool was founded in 1810 by Governor Macquarie and became the first regional centre. As Australia's fourth oldest town it plays an important role in Australia's development.

Liverpool City Council desired a contemporary wayfinding and signage solution that alludes to the history of the area.

The solution included a range of stainless steel signs with a bronze strip incorporating etched historical images to reference the local heritage.
